Phoenix, AZ 85028

To: Arizona Digital Products

Dr. Mark McAlister purchased a Xerox machine from Arizona Digital Products over five years ago. Since that time we have continued to purchase service agreements and supplies from Layne Roland, your service technician. Although I have only been here a year, Layne and Derek have been outstanding in taking care of our account. It's a relief to know if I have an issue there is always someone at your office to address that issue in a timely manner and that means a great deal to our staff.

If any company is evaluating a new copier vendor for future use, I would recommend Arizona Digital if they are looking for a service oriented staff that will go the extra mile to ensure your satisfaction.

Sincerely,

Angie Guzman
Office Manager
