To Whom It May Concern,

I have had Xerox devices in our organization for over 20 years. My current 73 series color copier has been extremely reliable. Being an accounting firm we rely heavily on our office equipment during tax season and the reliability of our Xerox is extremely important.

When we have needed service the response has always been very expedient. The service technicians are always courteous and professional.

If you are considering a 73 series Xerox we would highly recommend this device and the service and support that come with it.

Sincerely,

Carter Poulsen  
President
