Dear Matt:

We are happy to give a reference to your party interested in purchasing your WCP255 demo. Please convey the following consideration to your prospective client:

Our company has two of these machines and we have been very pleased with their performance. They are easy to operate and to maintain. Reliability is essential and we have never been disappointed in the product.

Arizona Digital Products is an outstanding company that offers superior service. They have been a great company to do business with and we are confident they will offer you the same attention they give to us.

Sincerely,
